FEDERAL MILK ORDER MARKET STATISTICS

JUNE HIGHLIGHTS

MINIMUM CLASS I PRICE, \$9.84; BLEND, \$7.92

PRODUCER DELIVERIES UP 3.3 PERCENT

PRODUCER MILK USED IN CLASS I DOWN 7.0 PERCENT

48 PERCENT OF DELIVERIES USED IN CLASS I

IN-AREA FLUID MILK SALES (ADJUSTED) DOWN 4.0 PERCENT

SPECIAL THIS ISSUE - Page 32

Milk Delivered by State of Origin 1972-73 USDA

U.S. Department of Agriculture Agricultural Marketing Service Dairy Division Washington, D.C.

issued August 1974

FMOS - 174

TABLE OF CONTENTS

Table	<u>No.</u>	age No.
	Summary	3
1.	Federal order fluid differentials, July and August 1974; minimum Class I prices for milk of 3.5 percent butterfat content f.o.b. market or other indicated point, and butterfat differentials, July 1973 and 1974; and Class I price, August 1973 and 1974	7
2.	Federal order minimum Class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, June	8
3•	Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-June averages	10
4.	Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, June	12
5•	Producer milk deliveries used in Class I and gross Class I sales by handlers regulated under Federal orders, June	14
6.	Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I, January—June	16
7.	Whole milk, lowfat and skim milk items sold in marketing areas defined by Federal milk orders, for markets where such information is available, May 1974, with comparisons	18
8.	Daily average sales of individual whole milk items, lowfat and skim milk items, in 57 selected marketing areas defined by Federal milk orders, January 1974 to date	20
9•	Packaged sales of whole milk, lowfat and skim milk items, milk and cream mixtures, cream items, and total fluid items by handlers regulated under Federal milk order markets, grouped by regions, May 1974, with comparisons.	22
10.	Packaged sales of milk and cream mixtures, cream items, yogurt, and eggnog by handlers regulated under Federal order markets, January 1974 to date, with comparisons	23
11.	Milk, skim milk and cream utilized in the manufacture of dairy products by handlers regulated under Federal milk order markets, grouped by regions, May 1973	24
12.	Milk, skim milk and cream utilized in the manufacture of dairy products by handlers regulated under Federal milk order markets, grouped by regions, May 1974	25
13.	Percentage of whole milk equivalent used in the production of manufactured dairy products, in 57 selected Federal order markets, January 1974 to date, with comparisons	26
14.	Federal order base and excess prices for milk of 3.5 percent butterfat content, June	27
15.	Seasonal incentive fund excluded under various Federal milk orders, June	27
16.	Dairy product prices and manufacturing milk prices used in Federal milk order pricing formulas, January 1974 to date, with comparisons	28
17.	U.S. milk prices and general price measures, January 1974 to date, with comparisons	29
18.	Retail prices paid by consumers for dairy products, United States, January 1974 to date, with comparisons	30
19.	Prevailing prices paid by consumers for the most common grade of whole milk, skim milk, ice cream, cheese, American process, and butter, 23 cities, June 1974, with comparisons	30
20.	U.S. production, January 1974 to date, with comparisons	31
21.	Commercial and Government storage holdings, January 1974 to date, with comparisons	31
22.	U.S.D.A. purchases (Delivery basis), January 1974 to date, with comparisons	31
23.	Milk deliveries, by State of origin, to handlers regulated under Federal milk orders, 1972-73	33
24.	Sources of milk for milk marketing areas under Federal orders, producer deliveries, by marketing area and State, 1973	34
	Major order actions, June	37

2/ Plain, flavored, and fluid equivalent of concentrated.
3/ Plain, fortified, flavored skim and lowfat milk, and buttermilk.
4/ Light, heavy, sour, and cream dips.
5/ Includes eggnog and yogurt.
5/ Includes eggnog and yogurt.
6/ Percentage changes over previous year are based on the same number of comparable markets in both years. Data for Februs 1972 adjusted to a 28-day basis before computing percentage changes.
7/ Excludes New York-New Jersey.
8/ 1974 data exclude the New York-New Jersey, Fort Smith, Lake Mead and Western Colorado markets.
8/ 1974 data exclude the new York-New Jersey in the reporting of the sales of cream items. As a result, the percent change over the previous year is somewhat overstated.

Data for February

1/ Includes products milk and some other source milk used to produce manufactured dairy products in regulated pool plants as well as milk diverted and shipped to nonpool plants for processing. Some data are partially estimated.
2/ Includes, in addition to listed manufactured products, milk, skim milk, and cream used in other manufactured products, i.e. evaporated milk, condensed milk, whole milk powder, aerated, and frozen and plastic cream; and, milk, skim milk, and cream used in food products as well as used in animal feed, dumped or spilled, plant loss and unidentified.
3/ Percentage changes over previous year are based on pounds of butterfat, except for skim milk powder which are based on pounds of

product. Percentage changes are based on the same number of comparable markets.

4/ Data for February 1972 adjusted to a 28-day basis before computing percentage changes.

5/ Excludes New York-New Jersey.

6/ 1974 data exclude the New York-New Jersey, Fort Smith, Lake Mead, and Western Colorado markets.

Ly interior series represent votar sares in each of the areas by naturers regulated under the respective orders, by naturers regular under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

Percentages based on the same number of comparable markets in both years. Data for February 1972 adjusted to a 28-day basis

 $\overline{5}/$ Excludes the New York-New Jersey, Upstate Michigan, Fort Smith, and Western Colorado markets. $\overline{7}/$ Excludes the New York-New Jersey, Fort Smith, Lake Mead, and Western Colorado markets. 1973 and 1974 data exclude the Mississippi market which was terminated May 1, 1973. 2/ Plain, flavored, and fluid equivalent of concentrated.

2/ Plain, fortified, and flavored skim and lowfat milk, and buttermilk.

4/ Percentages based on the same number of comparable markets in both years. Data for February 1972 adjusted to a 28-day before computing percentage changes.

5/ Adjusted to eliminate variations in data due to calendar composition. See special article in FWOS - 171, March 1974.

5/ Excludes the New York-New Jersey, Upstate Michigan, Fort Smith, and Western Colorado markets.

7/ Excludes the New York-New Jersey, Fort Smith, Lake Mead, and Western Colorado markets. 1973 and 1974, data exclude the

8/ Estimated.

^{*} Generally the major city in the marketing area. See footnotes on table 2 for location.

1/ The basic formula price is the Minnesota-Wisconsin price for the second preceding month adjusted to a 3.5 percent butterfat content.

2/ Tied to the St. Louis-Ozarks order.

3/ Tied to the Oklahoma Metropolitan order.

^{1/} In-area sales represent total sales in each of the areas by handlers regulated under the respective orders, by handlers regulated under other orders, by partially regulated handlers, and by producer-handlers. Sales routes of handlers may extend outside defined marketing areas; therefore, some handler in-area sales are partially estimated.

2/ Plain, flavored, and fluid equivalent of concentrated.

3/ Plain, fortified, and flavored skim and lowfat milk, and buttermilk.

4/ Figures are adjusted to eliminate variations due to calendar composition. See special article in FMOS - 171, March 1974.

5/ Small amount of sales estimated.

Federal milk orders are authorized by the Agricultural Marketing Agreement Act of 1937. In contrast to marketing areas where the regulated handlers distribute milk to the public, and which are specifically defined by the Federal orders, the milk supply areas for these regulated handlers are not specified by the orders.

During 1973 handlers subject to 61 Federal milk marketing areas received 66.2 billion pounds of milk from more than 131,000 producers in the 48 contiguous States. This volume of milk from producers accounted for 60 percent of all milk marketed in the U.S. and 78 percent of the milk of bottling quality sold to plants and dealers in the U.S. The value of this milk delivered to Federal order plants at order blend prices totaled more than 4.9 billion dollars.

In comparison, Federal order milk deliveries in 68 markets during 1957 amounted to 33.5 billion pounds, 34 percent of the 98.3 billion pounds of milk delivered to all plants and dealers in the United States. Slightly more than half of the fluid grade milk in the country was delivered to Federal order plants.

The following data present information on sources of milk pooled under Federal order markets for selected years, 1957-73. These data are one measure of the increasing importance of the Federal milk order program to the dairy industry, particularly the fluid milk sector, and illustrate the growth of the milk order program.

End of year; 1957, 1960-69, and 1971-73 according to 1950, 1960, and 1970 U.S. census, respectively.

2/ Average for year.
3/ "Milk Production, Disposition, and Income", SRS.
4/ Prior to 1972, yearly deliveries by a State are based on the relationship of deliveries in one month.

Some highlights of the 1973 data were:

- (1) Froducers in the East North Central region delivered the highest percentage (94 percent) of their fluid grade marketings to Federal order plants. Whereas Middle Atlantic and West South Central producers marketed under Federal milk orders the highest percentage (87 percent) of all their milk marketed. As might be expected, producers in the Pacific region delivered the lowest percentages of their fluid grade and all milk marketings (25 and 23 percent, respectively) to Federal order plants. (This is due to the absence of any Federal milk orders in the State of California.) See table 23.
- (2) Twenty-one Federal order markets received all of their producer milk and 22 other markets received more than 90 percent of their producer milk from the State or States in which their marketing areas were located. By way of contrast, the Connecticut and Southern Illinois markets received only 39 and 45 percent, respectively, of their producer milk from the State in which their marketing areas were situated. See table 24.
- (3) In each of six markets, Federal order handlers received all of their producer milk from dairy farmers in one State. Fourteen other markets had two States as their sources of producer milk. In comparison, the Eastern Colorado and Memphis markets obtained their milk supplies from producers located in nine States; the Fastern Ohio-Western Pennsylvania and South Texas markets received milk from eight States; and, seven other markets were supplied milk by dairy farmers from seven States. See table 24.
- (4) Iowa, Texas, and Wisconsin producers each delivered milk to 15 Federal order markets. Producers in Minnesota supplied 13 Federal order markets, and producers in Kansas and Oklahoma shipped milk to 12 markets.

More detailed information on sources of milk by county will be published later on this year in a report entitled "Sources of Milk for Federal Order Markets by State and County."

^{*} Prepared by John P. Rourke and Bessie Vanneman.

^{1/} Revised data for 1972. Partially revised for 1973.

^{2/} Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders. Deliveries by State are based on actual deliveries in each month of that year.

^{2/} Computed from data contained in "Milk Production, Disposition, and Income," 1972-73 and "Wisconsin Agricultural Statistics," 1974 issue #200-74.

 $[\]frac{4}{7}$ Percentage Federal order deliveries are of milk sold to plants and dealers that is eligible for fluid use ("Grade A" in most States).

^{5/} Not published to avoid disclosing individual operations for manufactureing grade milk.

^{6/} Data for the period, January-April, 1973.

^{1/} Total deliveries of milk by producers in each State to handlers regulated under Federal milk orders.
2/ For some markets, deliveries by some States have been combined. The States are listed by decreasing proportions of deliveries to the markets. States in parentheses delivered less than three million pounds to the market.
3/ Data are for the period, January-April. This market was terminated midnight, April 30, 1973.

MAJOR ORDER ACTIONS, JUNE 1974

Suspensions:

Central Arizona - June 26 (39 FR 23048, 6/26/74). This suspension removes for the months of June and July 1974, the provision that nor more than eight days production of a producer may be <u>diverted</u> to a nonpool plant during the month in order to qualify the diverted milk as producer milk.

Southern Michigan - June 1 (39 FR 24357, 7/2/74). This action allows a producer quarantined by a Federal or State authority to retain his base for 12 months. The suspension is effective for the months of June through December 1974.
